CIRCULAR STOOLS

The elegance and simplicity of the Circular Table Series extends to a casual seat.

A sturdy but agile floating presence is created by the stool's base, made from circular sections of plated steel tubing. The legs are bent to the tightest possible radius for elegance and sophistication. Circular stanchions elevate the upholstered seat from the base creating the appearance of exceptional lightness. Available in dining, counter, and bar heights, the stool's simplicity and purity complement any setting.
