STACKING TRAYS

When married with the warmth and intrinsic luxury of carved wood, a simple functional item like a tray can be elevated to an alluring must-have. This is the BassamFellows Stacking Tray, which makes for a durable, tactile and versatile addition to any interior environment.

The BassamFellows Stacking Tray has become an integral part of the company's 'Craftsman Modern' aesthetic because it interacts so seamlessly with all of the pieces in the collection.

Exuding contemporary chic as well as the essence of the hand-finished, the tray is carved from solid wood, with gently curved edges for a warm, personal touch. Individually, it functions as an impressive serving or display piece.

When displayed in multiples, the trays may be stacked together to form graceful side tables of any height, or combined with the Museum Bench to create a long coffee table. A singular item of immense variety.
