

## *Fiber Pendant Barge*

The Fiber series was inspired by the warmth of rice paper pendants. Combined with nautical materials, and connections, the elemental construction uses raw fiberglass discs, illuminated by blown glass bowls. Each component simply rests in another, which creates a natural ease between materials.

## *Materials*

Steel or Brass  
Polished or Satin  
Blown Glass  
Fiberglass

## *Specs*

Overall height to order: min. 25-1/8"
