

CHAINSAW SIDE TABLE / STOOL

Each stool stands 18" tall and is one of a kind. Hand-carved by designer Gregory Buntain. Extracted from large salvaged timbers, the levity of the shape offsets its heft, creating a moment of lightness in a room. Its organic form is expertly finished with a smooth table or seating surface that reveals the cross-section of the tree

Material & Finish

Made from reclaimed domestic oak. Finished with a durable high traffic lacquer in black with custom colors available

Special Notes

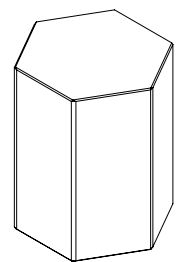

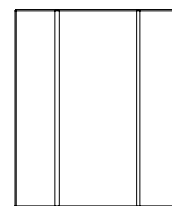

Dimensions and design may vary but the overall height is always consistent unless otherwise requested. Multiples can be clustered together to create a coffee table
