

STRATA DESK  
LEFT/RIGHT PEDESTAL

Strata is an elevated synthesis of materials at its most elemental. Hardwood surfaces are joined by vertical steel rods to create a rigid architectural framework. External rods celebrate the unique construction, while brake-formed steel panels form a captive interior

**Material & Finish**

Extensive standard finish options available for the wood, rods and panels create a myriad of possible combinations ensuring each made-to-order piece compliments its space perfectly. The single pedestal design houses a file drawer below a standard drawer and a thin pencil drawer beneath the work surface
